GB

- ▶ PBM cyclers are ideal equipment for companies dealing with battery regeneration and maintenance
- ▶ PBM cyclers are composed of BLT 160 discharger and an HF universal battery charger which can be either 8KW or 16 KW version
- ▶ Cyclers perform in automatic charge and discharge cycles
- ▶ Cyclers desulphate batteries restoring their full efficiency
- ▶ Cyclers assess the actual capacity of the battery
- ▶ Cyclers can work with Lead Acid battery, GEL, AGM, NiCd, LIPO
- ▶ Possibility to download the data of the charge and discharge cycle with PC
- ▶ Able to display the voltage and the current diagrams

CHARGER&DISCHARGER

MODEL

## CYCLER 8/16 KW

Model	Components	
CYCLER 8kW	Discharger BLT 96V 160A	4÷96 V 2÷160 A
	Charger HF8-T	6÷80V (96V) 2÷80A (65A)
CYCLER 16kW	Discharger BLT 96V 160A	4÷96 V 2÷160 A
	Charger HF8-TX	6÷80V (96V) 2÷160A (130A)
